CIMEOS

Dear colleagues,

We are pleased to announce a thematic Conference of IOSTE (International for Science and Technology Education)

“Models of health - educational, social and bioethical aspects”

This conference is organized by two regions of IOSTE : Central and East Europe (coordinator: Katarzyna Potyrala) and South Europe (Mediterranean countries: coordinator Pierre Clement) and corresponds to the **8th International Conference ‘Science-Society-Didactic’(SSD)** organized to Burgundy University (coordinator: Emmanuella Di Scala).

The Conference will be held in **ESPE, Ecole Supérieure du Professorat et de l’Éducation in Dijon, France, 25-26 of April 2018.**

The subject of the Conference is connected with the models in health around the following topics:

- I. Education and Health
- II. Technology and Health

III. Policy and Health

IV. Bioethics and Health

V. Media and Health

We hope to enjoy the company of well-known scientists from different countries, scientists, teachers, researchers, journalists, mediators, enthusiasts for whom contemporary social change is a starting point for undertaking the challenge of creativity increase in teaching, learning and training.

The conference program will include oral presentations (in English) and poster sessions (in English).

The participants can have accommodation at :

<http://www.cityloftdijon.fr/>

<http://www.hotelmagellan.com/>

<http://www.hotel-chambellan.com/artc/1/fr/>

The organizers of SSD don't reserve the hotel's place for participants.

The conference venue will be the ESPE: Ecole Supérieure du Professorat et de l'Education, 51 rue Charles Dumont, Dijon, France <http://espe.u-bourgogne.fr/>.

On behalf of the Organizing Committee, we would like to invite you to participation in the Conference IOSTE/SSD and to visit the portal of our city <http://www.destinationdijon.com/en/>.

We propose publication of the papers (in English) in the Journal *Annales Universitatis Paedagogicae Cracoviensis* ISSN 2083-7267, e-ISSN 2450-3487, 4 points, ministerial list B (http://bioannales.up.krakow.pl/?page_id=390). Annuals are indexed in: ERIH PLUS, BazHum, Polish Scientific Library and ARIANTA. Annuals are treated as a platform to exchange an idea about key issues of education as a background of scientific researches and conditions of education in different countries.

See you in Dijon

Emmanuella Di Scala, Katarzyna Potyrała and Pierre Clément
